WILLIAMSBURG BOAT CLUB

WBC is a community rowing club supporting middle school, high school, and adult rowers. The adult (Masters) program started in 2003 and has 40 adult rowers. The youth program started in 2014, and is growing rapidly with about 70 high school rowers and over 50 middle school rowers. Rowing builds physical strength and endurance, but more importantly, rowing builds determination, self-discipline, loyalty, and camaraderie. We support all of our rowing programs with high-quality leadership and equipment to ensure participants are competitive as well as safe.
